

ANNOUNCING A BREAKTHROUGH IN CONTRACT MEMBERSHIP MANAGEMENT

▲ PRODATAIVE® MEMBERSHIP MANAGEMENT

THE CHALLENGE:

- FINALLY A FLEXIBLE MEMBERSHIP TOOL THAT SAVES TIME AND IMPROVES ACCURACY

With over \$190 billion of pharmaceutical and medical/surgical products sold in the U.S. annually, manufacturers incur significant administrative costs to manage membership data. And after many hours of processing multiple groups across thousands of members, the result is often frustrating, inaccurate and costly.

Aspect Consulting has developed a customizable, web based application that effectively ends the nightmare associated with contract membership management.

INTEGRATING WITH CARSIS, THIS TOOL:

- SUPPORTS MULTIPLE SPREADSHEET LAYOUTS
- PERFORMS DATA STANDARDIZATION
- VALIDATES DEA DATA AGAINST PURCHASED NTIS DEA MASTER LIST
- VALIDATES HIN DATA AGAINST PURCHASED HIBCC MASTER LIST
- ENABLES DETAILED EXCEPTION REPORTING
- PERFORMS AUTOMATED MEMBERSHIP UPDATES IN CARSIS
- SUPPORTS CUSTOMIZED BUILT-IN BUSINESS RULES
- ELIMINATES DUPLICATIONS
- MANAGES MEMBERSHIP CROSS-OVER

“ What used to take 3 days now takes us a few hours. The membership error on chargebacks was reduced by half, saving us thousands of dollars each month! ”

– quote from an Aspect Client
