

# Banner<sup>®</sup> 8x to 9 Upgrade Services with Private Cloud Computing

*ERP Upgrade and Cloud Migration Services for Higher Education Institutions*

## Experience a Smooth Transition to Banner<sup>®</sup> 9 And Realize the Benefits of Private Cloud Computing

Aspect Consulting can help you smoothly **upgrade to Banner<sup>®</sup> 9**, and help you **affordably leverage Private Cloud computing services** to more cost effectively meet the sizable hardware needs required by the upgrade. We can help you provide a better path to reliability, redundancy, scalability, and overall technology innovation going forward.

### Banner 9 Upgrade Services

Aspect consultants will ensure a smooth transition to Banner 9, providing the project management, technical and functional resources to:

- **Identify technical environment needs** and execute an efficient upgrade plan tailored to your institutions needs.
- **Install and configure the software/hardware** and services required by Banner 9, including Oracle 12c.
- **Conduct business process needs analysis** across functional areas, and coordinate and plan for training.

### Private Cloud Configuration

The Banner 9 upgrade presents the perfect opportunity to make the move to and realize the benefits of private cloud computing. Aspect will

- **Manage the Cloud Transition:** Aspect utilizes a leading IaaS provider of off-premise dedicated private cloud services, with experience providing services to higher learning institutions.
- **Provide Configuration Services:** Aspect provides the resources to set up and configure the necessary servers within the new hosted environment.

### Ongoing Environment Support

Aspect can provide ongoing support of your cloud-based ERP environment, providing:

- **Database Administration:** provide remote monitoring, utilizing Aspect's value added services for issue and performance monitoring, perform routine database administration, performance tuning, and backup and recovery services.
- **Application Support:** provide troubleshooting of vendor issues, application performance, custom application development, and data integration services as requested.

### ERP Upgrade Expertise

Aspect Consulting has built a strong competency in providing expert services that drive successful Banner 9 implementations.

- **Proven Upgrade Process**  
We have a vetted, proven upgrade plan for installing and configuring Banner 9 and its supporting utilities and certifications, successfully utilized at multiple institutions.
- **Expert Upgrade Team**  
We have built a team of technical and functional experts skilled in providing services that ensure your upgrade is completed efficiently.

### Private Cloud Benefits

#### Dedicated, Secure Hardware

Dedicated servers are privately utilized by you in a fully protected, managed data center, alleviating any security compliance concerns associated with public configurations.

#### Protection Against Disaster

You realize a fully redundant environment, with no maintenance downtime, improved load balancing, and faster recovery timeframes, for less resource and cost outlay than a traditional in-house configuration.

#### Lower Total Cost of Ownership

Private cloud deployments are less expensive than large public cloud providers, and the virtualization, resilience, and redundancy of a private cloud help you reallocate resources more efficiently, realize operational savings and flexibly respond to future needs.
