Service Summary—Higher Education IT Services

Helping Our Clients Thrive
Client Success Stories

Our goal is to provide services that give our higher education customers a solid return on investment. Please read on for a sampling of recent successes.

ERP System Support Clears Backlog of Issues

Challenge: Understaffed IT Department
The university's IT department was incurring a critical backlog of issues while seeking to support multiple ERP systems across multiple departments.

Solution: Aspect Resources Efficiently Clear Issue Backlog
Aspect resources work collaboratively with business units across the university including the Office of Enrollment, Student Accounts, the Registrar's office and Academic Affairs developing integration solutions across multiple ERP applications. Aspect resources are responsible for project planning and scheduling, patch maintenance, and database administration, including database tuning and best practices implementation.

Smooth Transition to Cloud-Based ERP Environment

Challenge: Stalled ERP Platform Transition
The client was seeking an additional IT resources to support the stalled move to a cloud-based ERP system. The client's budget allowed for a single full-time resource, but the project would be short-lived, and required a specific skill set.

Solution: Smooth Transition with Rapid Development
Aspect's provided the resource, and successfully assisted the university with its migration to Ellucian Cloud, and has continued to provide as needed resources, supplementing the client's IT staff by providing Oracle database environment support, Hyland OnBase development resources, and custom software development, for less than the cost of a full time resource.

Giving Dashboard Reporting Improves Operational Efficiency

Challenge: *Improve Usability and Visibility into Advancement Data*
The Advancement Division at a mid-sized college was seeking to transform its ability to access and interpret data stored in Banner Advancement 8.8 and improve usability, particularly for frontline staff. The college engaged Aspect Consulting to provide the resources to develop key reporting enhancements.

Solution: *Cognos Report Dashboards for Giving Management*
Aspect's team of resources developed an HTML portal to provide role-based access to dashboards for the Advancement staff to manage operations surrounding giving. The multi-level dashboards enables users to profile prospects, look up constituent contact information, research past giving activity, create lists, and automate call tracking.

The Aspect Edge

Founded in 1994, Aspect Consulting, Inc. (ACI) specializes in data services and IT staffing solutions designed to address the technology challenges of higher education institutions.

Depth of Experience

Over 10 years specializing in providing data services, staff, and custom enhancements to support university ERP and LMS systems.

Experienced Professionals
