

Technical Staffing

Delivering Highly Qualified Technical Resources

Technical Staffing Services that Increase Productivity

We Provide the Right Staff to Match Your Needs *Saving You Both Time and Money*

Aspect Consulting successfully places qualified technical professionals, giving you instant access to the reliable resources you need to keep your projects on time & on budget.

Our success rate is higher than that of most staffing companies because our recruiters are dedicated and focused on specialized service. Our **Best Fit Process** is a proven approach for placing the BEST talent within the RIGHT position. While most staffing companies just want to fill positions, at Aspect Consulting, we want to provide our customers with the most capable resources that are the right fit for your organization.

- Our formula **TARGETS** our clients' expectations and only selects the most qualified, local talent as potential job candidates.
- Potential candidates are **SCREENED** by our staff of consultants with the highest level of technical expertise, to ensure competence for the task at hand. Our candidates are fully-vetted, and submitted for a client interview only after passing series of qualifications.
- We **MATCH** only the most qualified candidates with your position. By finding, hiring, and developing our resources, we can quickly provide you with first-rate consultants to match your needs, saving you both time and money.

Instant Access to the Staff You Need

Utilize our expert recruiters and our pool of vetted candidates to quickly staff your projects.

We consistently provide our customers with best fit, highly qualified, reliable resources. It's done quickly, and at a fair price.
